

WHEN IT COMES TO **CLAIMS HANDLING,** WE DON'T WEAR **KID GLOVES!**

If you ever face a malpractice lawsuit, you'll want someone in your corner who's not afraid to fight for you.

At SCPIE—a leader in medical malpractice insurance for almost a quarter of a century—we're renowned for our aggressive claims handling:

- We take a higher-than-average percentage of cases to trial—proof we're willing to stand up for our policyholders.
- Our success rate in defending our insureds is outstanding. Only one out of five claims results in an indemnity payment.
- Unlike some carriers, we do not settle frivolous claims or nuisance lawsuits that are completely without merit simply to be rid of them.

When insurers do that, the claims are resolved but the healthcare providers' reputations may be damaged.

- We do not settle cases without the insured physicians' written consent.

Combine our scrappy attitude with unrivaled experience and expertise, and you get an effective 1-2 punch!

- Our claims adjusters have an average of 12 years of experience. And because they

have smaller caseloads than their counterparts at many malpractice insurers, they can devote more attention to each individual case.

- We retain lawyers who have a demonstrated track record of competence in the field of medical malpractice and who have produced outstanding results.
- Our physician-led Claims Advisory Committee provides our Claims Department and defense lawyers with expert counsel on the medical merits of individual claims.
